

Wittenberg University provides a liberal arts education dedicated to intellectual inquiry and wholeness of person within a diverse residential community. Reflecting its Lutheran heritage, Wittenberg challenges students to become responsible global citizens, to discover their callings, and to lead personal, professional, and civic lives of creativity, service, compassion, and integrity. Our Connections curriculum provides opportunities for students to gain a solid academic foundation in multiple disciplines and then connect their classroom knowledge with practical situations, testing new skills in the wider world. Students will apply concepts from their coursework to experiential learning opportunities like civic engagement, internships, and research. These experiential learning opportunities also connect students with future collaborators, potential employers, mentors, and the community.

Making Connections

LO1: Students will articulate how their co-curricular experiences and their academic curriculum have shaped their personal, professional, and civic identities.

Some classes might count for two, or might also count for creative/critical thinking.

Writing: LO2

Eight credits of course work focused on writing.

Oral Communication: LO3

Eight credits of course work focused on oral communication.

Quantitative Reasoning: LO4

- a) A four-credit quantitative reasoning course.
- b) Four credits of application-focused quantitative reasoning.

Global Diversity: LO5

Eight credits of coursework with at least four credits with a focus on non-Western culture(s) and/or taught in a second language at the 112 level or above.

U.S. Diversity and Equity: LO6

Four credits of coursework

Some classes might also count for a core competency.

Scientific Inquiry: LO7

A four- or five-credit course.

Creative Process: LO8
